GLASS WALL SYSTEMS**

# VERTIGO

The Vertigo system is a cutting-edge motorized glass wall solution that transforms outdoor spaces into versatile, weather-proof retreats. With the press of a button, glass panels adjust vertically and stack seamlessly at the base to form a sleek, modern railing. Crafted from durable extruded aluminum and tempered glass, Vertigo is available in single or double glazing, combining elegance with lasting performance.

Designed to enhance home value and energy efficiency, Vertigo systems integrate effortlessly into any architectural style. User-friendly controls, remote operation, and easy cleaning make this stylish solution as practical as it is luxurious. For year-round comfort, the Vertigo Plus variant offers enhanced thermal insulation.

## VERTIGO SYSTEM FEATURES AND BENEFITS

- **Sleek Frameless Design:** Clean, modern look for balconies, railings, and partitions.
- **Durable Glass:** Uses tempered or laminated glass, with thickness from 10mm to 16mm.
- **Glass Size:** Panels up to 2.2m high, depending on glass thickness.
- **Weatherproof:** Built to last in various climates with corrosion-resistant materials.
- **Low Maintenance:** Easy to clean and maintain over time.
- **Wide Application Range:** Suitable for indoor and outdoor use, including balconies, staircases, and terraces.

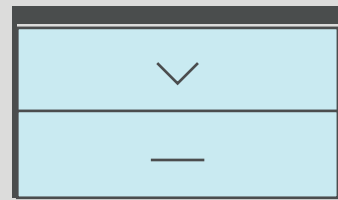

# VERTIGO PLUS

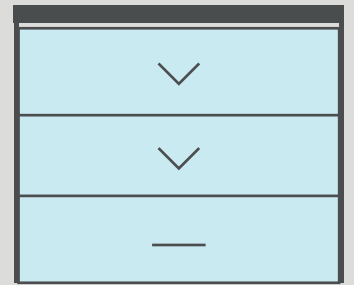

## VERTIGO PLUS ELEVATED PERFORMANCE

Offering advanced features to enhance thermal efficiency, weatherproofing, and user convenience. Vertigo Plus is ideal for larger and more complex spaces, taking performance to the next level.

- Standard Double Glazing: Superior insulation ensures comfort in all seasons.
- Upgraded SOMFY Motor: Handles larger, heavier panels with ease.
- Advanced Weatherproofing: Enhanced EPDM seals and brushes for better protection.
- Smart Control Compatibility: Operate panels via mobile apps or voice assistants.

# HORIZON

The Horizon System is a modern multi-rail sliding glass wall designed to enhance indoor and outdoor spaces with style and functionality. Ideal for terraces, balconies, and partitions, it supports up to 10 sliding panels, creating a seamless blend of space and natural light. Its minimalist design complements any setting, making it perfect for residential and commercial use.

Crafted with durable aluminum frames and 10mm tempered glass, the Horizon System ensures safety, longevity, and smooth, quiet operation. Features like the patented smart cap for precise installation and custom thresholds enhance its versatility, while excellent insulation and soundproofing make it a practical and sophisticated choice for modern spaces.

## HORIZON SYSTEM FEATURES AND BENEFITS

- Multi-rail system supporting up to 10 sliding panels
- Smooth and effortless glass panel movement
- 2 threshold options
- Easy and quick installation
- Robust aluminum and 10mm tempered glass construction
- Contemporary and minimalist style
- Full-height or partial wall configurations

# HORIZON PLUS

Horizon Plus – The Thermal Insulation Sliding System – sets new standards. These sliding systems redefine insulation, comfort, and aesthetics, transforming your balconies, winter gardens, and restaurants into true living spaces.

Horizon Plus can be equipped with either double glazing or single glazing. The issue of inadequate insulation is solved by the Horizon Plus sliding system, which offers an elegant and exceptional panoramic view without the use of fixed corner profiles, thanks to its special panels that can reach up to 1.5 meters in width. They can be easily opened or closed using advanced traction units and a special locking system.

## HORIZON PLUS SYSTEM FEATURES AND BENEFITS

- Energy Efficiency: 4.3 times better thermal insulation than single glazing, saving energy.
- Unobstructed Vision: Panoramic views without corner profiles.
- Easy Cleaning: Detachable panels for easy cleaning. Security Locking Options: Choose from various locking systems.
- Panoramic View: 1.5-meter-wide panels for a clear view, easy to open and close.
- Glass types: 10 mm monolithic, 20 mm thermos
- Maximum height: 2800 mm, width: 1500 mm
- Threshold: Standard (42 mm) or low (15 mm)

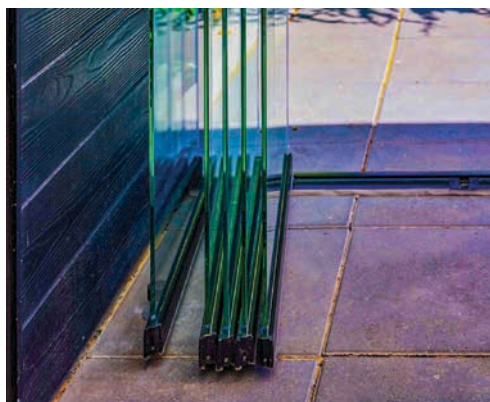

# PANORAMIC

Transform your spaces with Panoramic Glass Walls, offering uninterrupted views and seamless indoor-outdoor connections. Combining high-end aesthetics with practical functionality, these customizable walls are perfect for patios, sunrooms, or open interiors, seamlessly integrating into any design. Built with advanced technology for smooth operation and minimal maintenance, they deliver a sleek, modern feel without compromising energy efficiency or durability, making them an elegant solution for residential and commercial spaces.

## FEATURES AND BENEFITS

- Seamless Design: Uninterrupted views.
- Customizable Options: Fits any style or space.
- Advanced Technology: Smooth, durable operation.
- Energy Efficiency: Reduces heat loss.
- High Durability: Withstands all weather.
- Improved Functionality: Maximizes light and space.
- Pivoting glass system with integrated lock
- 10mm thick glass panels
- Maximum panel size of 120"
- Easy-to-clean exterior glass surfaces from the inside
- Tested and certified products

# PANORAMIC PLUS

The Panoramic Plus system is a thermally insulated sliding glass solution that brings your outdoor space to life with breathtaking panoramic views and enhanced insulation. Designed with EPDM magnetic seals, it boosts energy efficiency and provides soundproofing, ensuring a cozy, quiet environment. Whether your enclosure is straight or curved, Panoramic Plus fits seamlessly. The sleek glass panels slide and pivot effortlessly for smooth operation. For added peace of mind, it includes windproof locking devices and child-safe locks. Certified by independent testing institutes, Panoramic Plus offers a perfect blend of comfort, versatility, and security.
